ENTRY REQUIREMENTS

Induction Training for Construction Work (ASCC 2007) is required before entering a construction work site. Achievement of unit CPCWHS1001 covers this requirement. This qualification is suitable for an Australian Apprenticeship pathway.

It is an MBA Group Training requirement for those wishing to undertake this course that they must:

- Complete a language, literacy and numeracy (LLN) assessment and a pre- enrolment interview and;
- Complete an Asbestos Awareness course mandated by ACT Government

All students undertaking this course must have or obtain a Unique Student Identifier (USI) and provide this to the RTO prior to, or at, enrolment.

MBA Group Training Ltd is authorised under section 9 of the Student Identifier Regulation Act 2014 to collect or use a student identifier.

CAREER OPPORTUNITITES

This qualification provides a trade outcome in carpentry, covering work in residential and commercial applications.

Occupational titles may include:

- Carpenter

The qualification has core units of competency requirements that cover common skills for the construction industry, as well as a specialist field of work.

PATHWAYS

On successful completion of this qualification participants will receive a trade certificate which satisfies the licensing required for relevant states. Trades people may choose to work as an employee, subcontractor or with further experience may work as a leading hand or fore person.
