

MASTER BUILDERS ACT

The Master Builders Association of the ACT has represented the building and construction industry since 1925. Our members include major companies operating in the ACT, but primarily small and family businesses. Our members represent the entire supply chain of the industry including commercial and residential builders, civil contractors, subcontractors, suppliers, property developers, and professional consultants supporting the building and construction industry.

We have operated the ACT's leading specialist building and construction industry training organisation, MBA Group Training Limited, since 1969. We aim to help our members operate safe, productive and successful businesses.
